# INTRODUCTION

This document will show how YouTube Deluxe and its functions work together to provide a better experience for the user. The document will go more into detail on 1 hour free listening, guitar/chords, Dislike button, social ranks and YouTube Wrapped. This document will explore functionality of user and system interactions. This document will allow for a safe integration and documentation of what is going to be in the app.

## Description Model

### 1. Button: Bringing Back The dislike button after it was taken in 2021

- Users will be able to see how much dislikes are on a video
- Users can also dislike the video

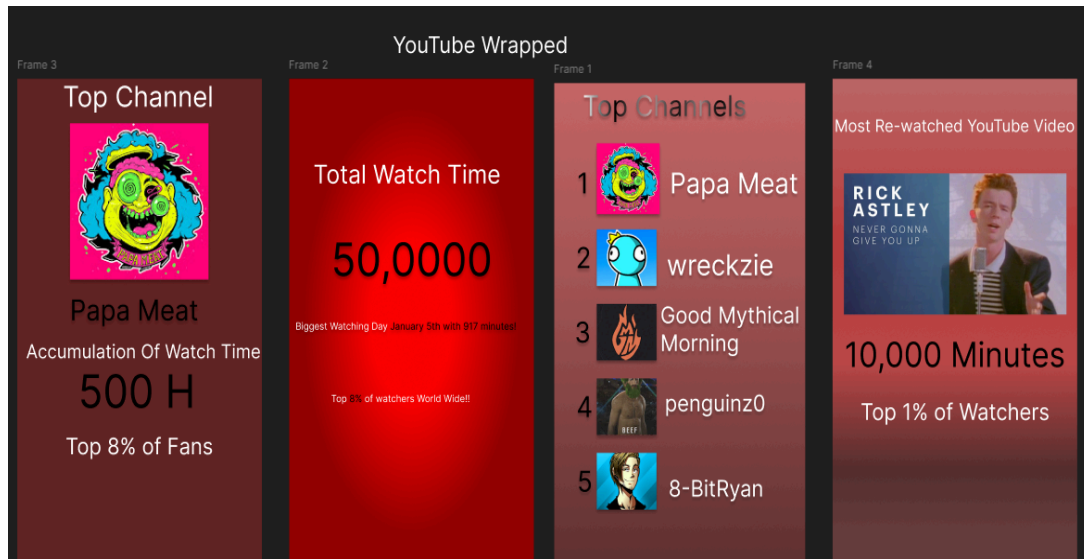

### 2. Guitar Chords/Tabs:

- Creators of the video can make tabs for the video to show or have ai do it for them
- There will be an arrow on the top right of the music video to have the pane of the chords and tabs to pop out.
- Tabs will have frets and which finger to use and chords will show formation and which fingers to use on each

- - How much time you spent watching youtube
- - Your most watched video with hours and minutes spent
- - Total watch time and the day you spend the most watching youtube
- - A list of your top 5 content creators

## 5. Ad-free listening:
